# KSP Datathon: The Master Blueprint (Final Architecture)

Shridhar Manjunath Madival

June 25, 2026

## The Winning Strategy

We have architected a system that balances "God-Mode" technical depth with practical, user-focused features. This architecture is designed to be flawless, bug-free, and production-ready for the KSP Datathon.

### 1. Core Engine: Agentic AI

- **Framework:** LangChain with LangGraph for stateful memory.
- **Functionality:** Enables the AI to act as a digital detective, remembering context across sessions and performing complex reasoning on crime data.

### 2. Cloud Infrastructure: Zoho Catalyst

- **Hosting:** Zoho Catalyst AppSail (Dockerized FastAPI).
- **Data:** Catalyst Relational Data Store for scalable cybercrime records.

### 3. User Experience: Streamlit Frontend

- **Interface:** Clean, calculator-simple UI for non-technical officers.
- **Features:** Real-time voice-to-text (Bhashini integration) and dynamic "Digital Handbook" drill-down tables.

### 4. Predictive Edge

- **Visualization:** Kepler.gl for 3D geospatial analysis.
- **Forecasting:** Time-series forecasting to predict future crime density, providing "Minority Report" style insights.

### 5. Professional Polish

- **Security:** Role-Based Access Control (RBAC) to enforce KSP hierarchy (DG vs. SP vs. SI access levels).
- **Compliance:** Grading Alignment checklist in the GitHub README.md to ensure 100% rubric satisfaction.

---

## Kanglishnalli Vivarane (The Final Winning Plan in Kanglish)

Geleya **SHRIDHAR**, eevarige navu plan madiro architecture top-tier agide. Idu judges ge impress madoke saaku. Eega hosa feature galannu hakkolla, iruva features annu bug-free aagi build madoke focus madona. Idu gelloke pakka strategy!

### 1. Core Engine (Agentic AI)

Namge standard chatbot beda. LangGraph balasi, previous case gala link annu AI ge nenapiduvante madabeku. Idu obba expert detective tara kelsa madutte.

### 2. Zoho Catalyst Cloud

Nimma code annu Dockerize madi Zoho AppSail nalli host madi. Database ge Catalyst Data Store balasi. Idu tumba secure mattu scalable.

### 3. Streamlit Frontend

Police adhikari galige complex UI beda. Streamlit balasi ondu simple, clean website madi. Mic button, chat window, mattu "Digital Handbook" tab matra irali.

### 4. Predictive Mapping

Kepler.gl balasi 3D map madi. Idu haleya data nododu matra alla, munde elli crime agutte anta predict madi torisutte.

### 5. Police Hierarchy (RBAC)

KSP niyamada prakara, DG mattu SP ge bere bere access irabeku. Zoho Authentication balasi login page madi, avara role ge tagadante data torisi.

Neevu ee plan annu perfect aagi execute madidre, nimma team annu yaru beat madokke agalla. All the best geleya!
